

SUPERCITY

Stage plan:

Supercity has:

- 2 vocal mics on the right side of the stage
- 1 trumpet mic on the left
- 2 guitar players with amps
- 1 keyboard that plays through a guitar amp (!), so no DI box needed, but a sm57 type mic
- 1 full drum kit
- 1 bass amp on the far right side, a split DI would be great
- 1 percussion player (Maarten) that needs 2 * sm57 type mics and one overhead (condenser)
- 1 percussion player (Fabio) who needs 1 * sm57 and one overhead (condenser) for all his little percussion stuff

Please let us know if we can use a local drumkit and bass amp, and a keyboard stand...

Note for local sound mixer:

- Our lead singer in the middle has his guitar amp behind him, we would all like to hear his voice and guitar over monitors
